Murphy Oil plans 44 new wells in 1988

Murphy Oil plans to drill 30 more thermal wells and 14 more primary production wells in 1988, Thermal Operations manager Lyndon Bland told members of the Elk Point Chamber of Commerce last week.

Construction of the first phase of Murphy's commercial steam extraction project was half completed, after ten years of experimental work, when oil prices dropped in 1985. Drilling continued at a reduced pace, with the first of the new wells turned on early in 1987. As oil prices crept up, more wells were put into production. By the end of 1987, production should reach 2,500 barrels per day, Bland said.

Bland introduced Tony Griffin, project engineer, and Phil Ulman, environmental engineer for Murphy, who are working on plans for future expansion of the project. Approval is now being sought for reduction of spacing on primary wells from 160 acres to 40 acres, and expansion of production to 12,500 barrels of crude oil per day. The new primary wells are to be located to facilitate later conversion of the well sites to pads for multiple wells during the steam injection process.

During the secondary production, wells can be drilled on 5 acre spacing, but Murphy has been drilling multiple directional wells from 1½ acre pads into these areas. Up to 16 wells can be located per pad, going approximately 1,600 feet deep and up to 900 feet laterally into the various areas.

Murphy expects to get from 4 to 8 months of production from each steam injection cycle. Wells can be steamed 8 or 9 times during their lifetime. Only about 17 percent of the oil reserve can be

recovered, even after 9 steam cycles, Bland noted, but improved methods are constantly being looked at.

Maps of the area to be included in the proposed development also show a new road leading toward Bonnyville, and a pipeline constructed by Husky Oil, which goes to Lloydminster. Westmin, Dome and Suncor are already using this line, and Murphy could easily hook into it because of its proximity to their plant. A second pipeline is planned by Amoco. Bland said that the plant must be hooked into a pipeline within 1½ years of startup, according to the conditions of their approval by the ERCB.

Chamber president Ed Buck questioned the road leading to Bonnyville rather than west toward Highway 41, but was told that the new road stretches through the company's future development area, and will also provide easier access for the Bonnyville-based service rig companies who are employed by Murphy.

Bland said that Murphy spent \$30 million on well drilling during 1985-86, of a total \$45 million, and expects to spend \$10 million per year on additional drilling, plus operating cost. Fifteen people, most hired locally, make up Murphy's staff at present, along with 5 contract people. The staff is expected to grow to 25 by the spring of 1988, with an eventual total of 50.

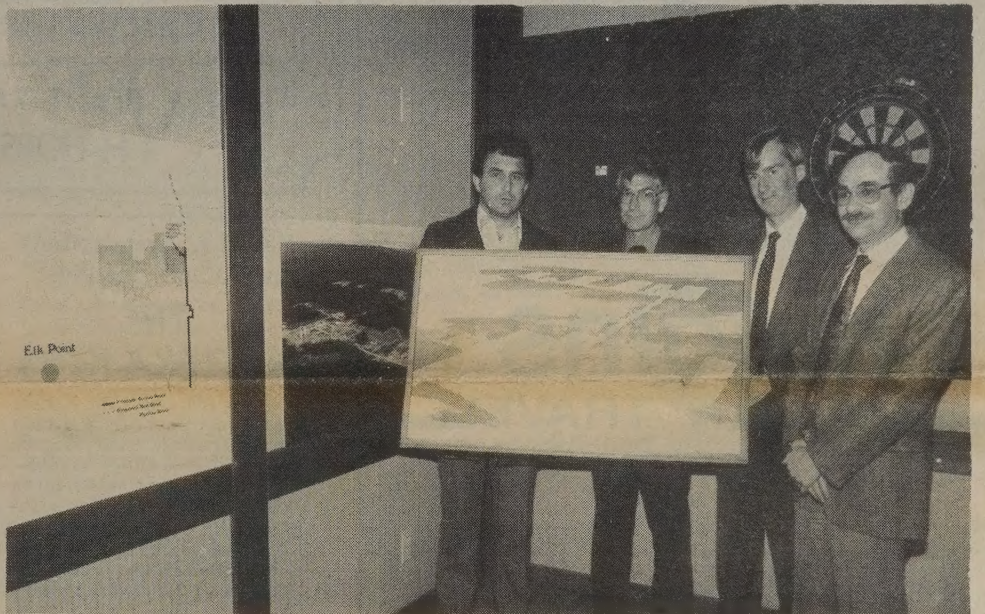

Murphy Oil is a division of the U.S. owned Murphy Corporation, which has generated \$2 billion in revenue annually. Until recently, 30 percent of Murphy Oil was owned by Canadian investors, however the parent company bought these out. Bland feels the takeover "gave the Canadian

division more potential, and made it better competition with U.S. companies. The Canadian branch has its own Board of

Directors.

Murphy owns a refinery in Superior, Wisconsin, which is beneficial for Canadian oil being

exported to the U.S. Bland noted that Canada has an excess of heavy oil, "far beyond our needs."

New, improved Elks win first 2

The Centennial Hockey League has some new competition to reckon with. Last year's last place finishers, the Elk Point Elks, took two wins from the Cold Lake Packers in their first games of the season, last Thursday and Friday.

Fresh from their 6-5 win Thursday night, the Elks bombarded the Packers 9-5 Friday before a moderate crowd of hometown fans.

Goals by Elks Keith Campbell and Vic Stepa, off assists by Darryl Smith, Kerry Loughran, Murray Cochrane and Allan Loughran were countered by a single Packers goal, by Perry Stadler, assisted by Mike Hambley and Guy Dubeau, to make it 2-1 for Elk Point at the end of the first period.

The Elks added five more goals in the second, with 2 by Cochrane and one each by Murray Scoggins, Willie Lesyk and Terry Wozniak, assisted by Lesyk, Stepa, K. Loughran, Scoggins, and A. Loughran. Rob Thorneycroft scored a hat trick for Cold Lake in the period,

assisted by Stadler, Chris Boisvert, Hambley and Fred Potvin.

Injuries sidelined three players during the period, with Elk Darryl Smith dislocating his shoulder in a pileup in front of the Packers' net, Vic Stepa helped off the ice after being slammed into the boards, and an uniden-

tified Packer felled by a hard cross-check at centre ice.

Scoggins, assisted by Lesyk and Duncan Osinchuk, and newcomer Dave Laramee, assisted by Allan and Kerry Loughran, added two final goals to the Elks scoreboard in the third period, while Mike Ross contributed the final Packers goal.

Armed robbery

Elk Point RCMP are investigating the Saturday morning armed robbery of the Lucky Dollar Food Store in Heinsburg.

Three males entered the store when owner Rudolph Gregor opened the door at approximately 9 a.m., brandished a firearm and demanded cash. Gregor, who is in his late eighties, suffered bruises and facial cuts in the ensuing scuffle, before the culprits fled with the money and some merchandise.

The owner's daughter, Alice Gregor, came to work at the store

moments after the assault and summoned the police. Mr. Gregor was taken to hospital in Elk Point and later released.

Three suspects are in custody while RCMP are still looking for a fourth. Two fixed-wing aircraft and a Fish and Wildlife helicopter were used in the search Saturday. No names have been released to date.

The incident was "something you would never dream of in a place like this," Alice Gregor said.

THE CENOTAPH — At Elk Point, in silent tribute to those who died in other lands, awaits the wreaths of scarlet poppies.

VERSATILE ARTIST — Susan Lett is shown with some of her works which were on display at Elk Point Library last week.

First Elk Point show for Susan Lett

A newcomer to the Elk Point art scene presented a display of over thirty oil paintings at the Elk Point Library last week. Susan Lett, whose subjects range from Ukrainian rural life to still life, enjoyed a good response to her first show in the area. Born and raised in the Lac La Biche and Wandering River areas, Mrs. Lett first developed her interest in oil painting during her high school years in Lac La Biche. Of Ukrainian descent she identifies strongly with her heritage, and reflects this in her most striking works. Her recent move to the Elk Point area, along with her husband and children, has strengthened the ethnic bond and contributed to the artist's continued interest in this style of art. Other works are Mrs. Lett's Impressions in the style of the Old Masters, also reflecting a European flavor. The collection also featured a number of still lifes, and delicate and

life like renditions of both wild and garden flowers. Mrs. Lett has previously shown her work at the Lakeland Regional Art Show in Grand Centre and at a show of the works of local artists in Lac La Biche. As a result of these shows, she has received commissions for individual works by patrons who admire her painting style. Further showings, "when I get enough new work completed", are anticipated in future.

Again, a day to march

By Irene Magnusson

Remembrance Day - Armistice Day, as we used to call it - has rolled around again, again a day to remember those who have laid down their lives, those who offered their lives but were spared, and all those moments when we, as a nation, had to defend ourselves from a destructive enemy. At the moment, we are free of a personal war, free, one might say, to make of our country what we will.

When I was a kid, I believed it was inevitable that there would be a war every twenty years. After all, in history class we learned there was the Boer War, about twenty years later came the First World War, I was not at all surprised when the Second World War popped up (although by then I was no longer a kid, but still didn't pay too much attention to the causes of it all). Well, a couple of twenty-year spans have passed since the last Armistice was signed - can we extend that to 'forever?' I would certainly like to think so.

Perhaps if we all could continue thinking and praying and saying Peace on Earth - and practice what we preach - there can be something accomplished. I hate to think of humanity as only able to roust out a depression by declaring a war.

Glancing at my Weather Trivia calendar, I see that on November 11, 1940 an Armistice Day storm on the Great Lakes caused three large ships to be wrecked, along with several smaller craft, and the tragic loss of 69 lives. Winds reached 130 km/h, (which is around 80 mi./h in 'real' speed) and when you consider that 60 to 75 km/h is considered gale force, it was quite some windy down there.

November of this year is expected to be milder than average, according to Ye Olde Farmers' Almanac, with not too much snow (or rain) until near the end of the month. I can live with that. Also, in the skies, we have several planets doing their bit to light our way. Jupiter is the brightest one, with Venus and Saturn getting together briefly in the west in early evening, while Mercury shows up in the eastern sky just before dawn (brightest on the 13.) We enjoyed the Full Beaver moon on November 5, at 11:47 hours. And the general outlook for the entire winter, as Robert B. Thomas, editor of the Old Farmer's Almanac sees it, is "milder than normal" except possibly for February, so the question is, when are we going to be able to ski?

For those Scorpios (born between October 23/November 22) your sign is the Scorpion, ruling planet - Pluto. Your element is water, quality: powerful, and your ability is to concentrate. Lucky color: shades of dark red. Scorpio governs detectives, researchers, secrets and passions. Your best times of the year are: Oct 23 to Nov 22, personal fortune; Feb 20 to Mar 20, love and romance; Jun 21 to July 22, fun and recreation. You get on well with Cancer and Pisces persons, and may find your fortune in Colorado, Norway, Rio de Janeiro or Washington, D.C.

Now aren't you glad I found out all that for you?

Now for my own personal observations of November, which is our 11 month, but is called by the Latin number for 9. It will gradually get colder, until we quit complaining about it being a cold fall, and start calling it a mild winter. There will be snow, and threat of snow, and already the little weasel I saw by my porch with a mouse in his teeth was decked in a pure white coat.

The birds have been coming around for handouts for some time now, and whatever do they do for water, with

all the sloughs and creeks so low, and now frozen solid? There is absolutely no dew or frost on anything they could pick off. I have water pans in my yard for them, and put out fresh water often. The small birds - chickadees, sparrows - have always come to drink; now I see blue jays, and my lone partridge comes once in awhile, very suspiciously, but, I'm sure, very thirsty. Of course, the red squirrel is round and about all the time.

I wonder what the partridge has to eat? There are very few rose hips, no bunchberries at all that I have seen. I put out wheat and barley, but suspect

the jays and Old Red got most of it.

The Wildlife Officials have opened the deer hunting season, they seem to think there are lots of deer around, and I question that, but I KNOW there are lots of coyotes, for I both see them and hear them.

One story I heard has it that there is a black wolf in the vicinity, which may be, but I am inclined to take that with a grain of salt. Why would they come here? There are very few rabbits, almost no ground birds (grouse)-perhaps lots of mice? Bears, anyone? we haven't had a good bear story for years.

In our own way, we will remember

Each in our own way, we will remember them...

strange names--Iwo Jima, Manchuria, Verdun, Ypres.

Some will remember fathers, brothers, husbands who went off to war, never to return.

Some will remember new friendships made during the war, on transport ships in military hospitals, in battlefield trenches, on leave in private homes, and at canteen dances.

Some will remember the hardships of the war years, and the relief of getting a letter from those who had gone to war, or from relatives in the war-torn countries, or the dread of receiving a War Department telegram.

Some will remember the stories told by those who returned home, and retold many times throughout the years.

Some will remember the horror of the trenches, of friends and comrades dying before their eyes, of mud, and blood, and flying shrapnel.

Some will only remember the ranks of Legion members, proud ranks of medals on their chests, marching in other Remembrance Day parades.

Some will remember the news of the war on the old battery radios -- stories of victories and casualties, of death and destruction, of happenings in places with

All will remember that these brave people fought, and many died, that we could live in peace.

Yes, we will remember them...

We watched you day by day
We cried and prayed that your
dear life would not be taken away
You are not forgotten dear father
Nor ever shall you be
As long as life and memory last
We shall remember thee.
So farewell dear father
Thy work is over
Thy willing hands will toll no more
A loving father kind and true
No one on earth will find like you.
Sadly missed and always
remembered by your loving family.

One of the active clubs in our community is the Knights of Columbus, the Father W.A. McPhee Council 7917. 42 men, all members of the Catholic Church, are on the membership roster, and over half of that number are active members.

The Knights were founded in 1882 by Father McGivney, as a form of life

insurance protection for the families of workers in industry in the eastern United States. The organization grew to include groups in Canada, Mexico and the Philippines.

Present-day Knights are a charitable organization involved in the Knights for Moms which supports battered women and abused children, the Marion centre, Pro-life, Squire and Squirette programmes. Besides these, the Knights in this parish support a poster contest, mother's Day Breakfast, help to individuals and families in need, church maintenance with financial and manpower aid, Basketball Freethrow Competition, and assistance at other community events.

Chaplain is Father Stan Blaszkowski, Grand Knight is Wayne Arsenault, Deputy Grand Knight - Patty Bardoel, Financial Secretary - Brian Huxley, Treasurer - Kevin McCormack, and Recorded - Andrew Convey. The Knights of Columbus meet at the rectory on the first Wednesday of each month.

Canteen needs slippers

By Irene Magnusson

"We could definitely sell more knitted slippers," said Elk Point Hospital Auxiliary canteen supervisor, Violet McFadyen, in reporting to the Auxiliary group at the October 26 meeting. All other sales items were in good supply and selling at a normal rate, the canteen is open three days per week, with Gloria Lecopoy, Wilma Kjenner and Violet McFadyen the volunteers in charge.

Other items of interest at the Monday night meeting were recruiting of delegates for the November 24/25/26 Annual Hospital Convention in Edmonton, tray favors, and a run-through of assigned responsibilities of auxiliary members in connection with the "Disaster Exercise" planned for October 29. Each member has her special task to do, when the call comes.

It was agreed that President Wasy Elashuk and Treasurer Violet McFadyen will most likely be the delegates, as no one else volunteered for this task. Two will be registered, and changes could be made. Pat Johnson and Irene Magnusson offered to attend the November 19 Regional Conference at Tofield for the group. This was accepted.

Members were advised to carry on with crafts for the annual sale in the spring. Next meeting will be Nov. 23, called the "Christmas" meeting. 8:00 p.m.
